-

WORK EXPERIENCE

Rice University Baseball (Houston, TX)

August 2021 - present

Head of Analytics and Data Integration

- Work with coaching staff to facilitate access to all data and information desired for game preparation, advance scouting, player development, and player evaluation
- Build statistical models using R to evaluate and predict player performance at the college level
- Compile, analyze, and present data to create detailed performance evaluations, scouting reports, and analytical models for the team and opponents
- Maintain our AWS Database and Github repositories to ensure easy access to data and code
- Set up and operate video cameras and data tracking equipment to record video and track pitches during bullpen, practices, scrimmages, and games
- Teach new team members how to operate equipment and complete scouting work
- Experience with Trackman, Rapsodo, BATS, Kinatrax, Synergy, TruMedia, and other software

Seattle Mariners (Seattle, WA)

May 2024 – August 2024

Baseball Projects Intern

- Incoming Summer 2024 Baseball Projects Intern

Hyannis Harbor Hawks (Hyannis, MA)

January 2023 – December 2023

Baseball Operations and Analytics Intern

- Utilized R and Python to build Trackman reports, simulation models, and calculate advanced statistics for practical application by the team
- Present analysis to coaching staff and collaborate with them to design optimal game plans for opposing teams
- Collaborate with General Manager and NCAA coaches in order to recruit players and make daily roster management decisions

William Blair (Chicago, IL)

June 2022 - July 2022

Private Wealth Management Intern

- Worked closely with the Kasten Wealth Management team to research stocks, alternative securities, and other areas of interest to the team's advisors
 - Used data from Factset to analyze the historical performance of various investment portfolios
 - Built a complete investment portfolio including stocks, bonds, ETFs, and a 529 plan for a mock client after conducting a prospecting session and meeting with several wealth advisors
-

TECHNICAL SKILLS AND PORTFOLIO

- Proficient in R, Python, Java, SQL, and Microsoft Office
- Some Experience with HTML, CSS, C, Javascript, and Swift
